Princess V55 – Available for the 2026 Season

Please contact us to receive the full specification and option list.

This 2026 Princess V55 is powered by twin Volvo Penta D13-1000 engines (2 x 1000 HP), delivering outstanding performance and smooth cruising capabilities. She is equipped with Volvo joystick control with dual station functionality, including a second control station in the cockpit, ensuring precise and effortless manoeuvring.

For enhanced onboard comfort, the yacht features a Seakeeper 9 gyro-stabiliser, significantly reducing roll at anchor and underway. An upgraded ONAN 17.5kW generator and reverse-cycle air conditioning/heating system provide reliable onboard power and climate control in all conditions.

The exterior is finished with extensive teak decking, including side decks, foredeck, and coachroof, creating a refined and premium look throughout. An electrically operated sun awning at the aft end of the cockpit adds practical shade and comfort while at anchor.

The interior is finished in walnut satin wood, offering a contemporary yet warm atmosphere. The yacht accommodates up to 6 guests in three cabins: a full-beam master cabin, a forward VIP, and a twin guest cabin, all designed with attention to detail and high-quality materials.

With a substantial optional equipment package already installed, this V55 represents a strong specification and an immediate opportunity for the 2026 season without construction lead time. Full details and commercial terms are available upon request.

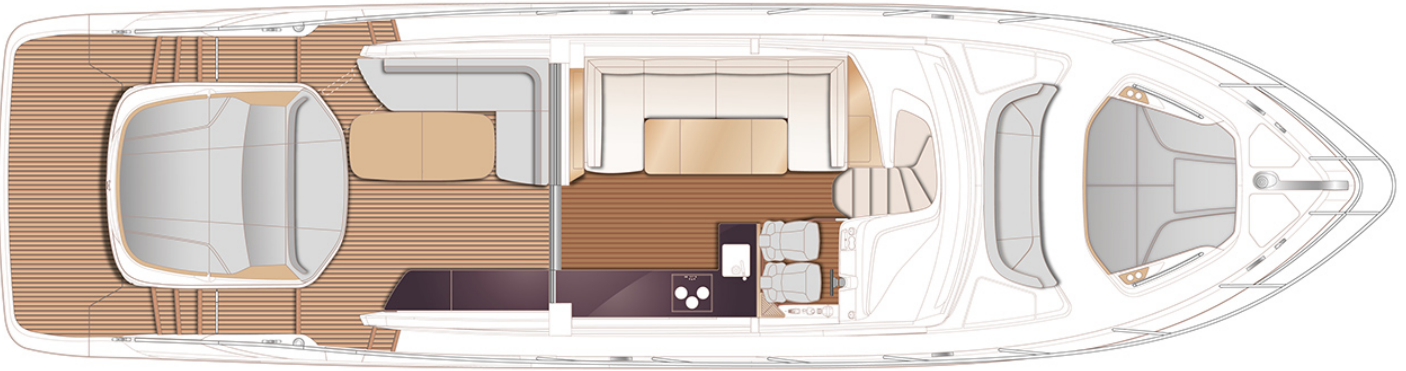

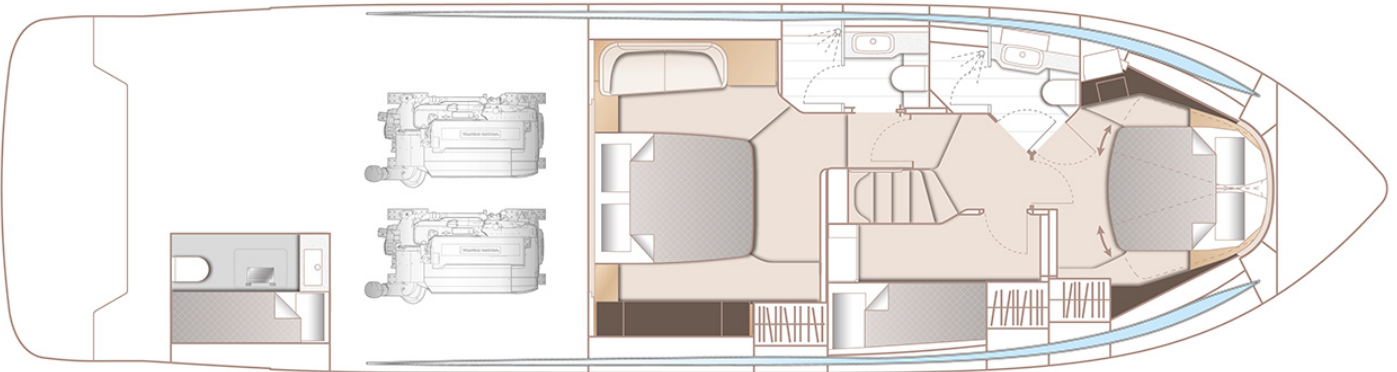

LAYOUTS

MAIN DECK

LOWER DECK

EQUIPMENT

ENGINES & DRIVE

- 2x Volvo Penta D13-1000 (2x 1000 hp)
- HOLD FUNCTION DOCKING FACILITY, includes fitting a 170 kgf variable speed sternthruster
